

CYCU 2021 Regulations for International and Mainland Students to Return In Advance.

Executed according to the meeting record of “The 7th Pandemic Prevention School Meeting of the 109 School Year”. (Related ordinance will be adjusted based on government policies.)

Due to the increasing severity of pandemic, the process had been simplified to a **single step** through cross-functional coordination on 18 May, 2021 as shown below: **Fill out the following form.** (There’s no need to do it again if you had already finish it before.)

Students may start arranging departure matters after the form is finished and confirmed received by the International and Mainland Students Advising Division. The name lists will be collated and submitted by the International and Mainland Students Advising Division. After the lists are approved, the after treatment will be assigned to the subordinate department.

The above information will be announced on the Disease Control Area of CYCU, Facebook and other related groups. If there’s any questions, please contact the instructor or the counselor of the International and Mainland Students Advising Division.

Contact information:
